

Service Classification 2 Rates

(a) Facilities Charges

- (1) For Customers where two or more Customers are served through separate meters from a single service drop or underground service:

\$ 5.96 per month for single-phase service

- (2) For all other Customers:

\$ 7.96 per month for single-phase service

\$16.00 per month for three-phase service

(b) Energy Charges

The following charges shall apply to all kwh used during the billing period, except for Space Heat Usage during the Winter Season, for bills issued during the following seasons:

<u>Summer Season</u>		<u>Winter Season</u>	
For the first 300 kwh	8.315¢ per kwh	For the first 300 kwh	7.707¢ per kwh
For all over 300 kwh	7.515¢ per kwh	For all over 300 kwh	5.947¢ per kwh

(c) Space Heating Service

Space Heating Service hereunder is available to any Customer with permanently installed electric space heating equipment capable of providing more than 50% of Customer's space heating requirements.

(1) Energy Charges

- (i) Non-Space Heat Usage shall be billed in accordance with Section (b).

- (ii) Energy Charge for Space Heat Usage shall be 2.499¢ per kwh.

(2) Determination of Non-Space Heat Usage and Space Heat Usage.

- (i) Non-Space Heat Usage for each Winter Season billing period shall be all kwh used during the billing period up to the product of the average daily usage in the two billing periods with the lowest non-zero kwh use per day occurring during the twelve consecutive billing periods ended with the current billing period multiplied by the number of days in the current billing period, but not less than 13 kwh per day.

Service Classification 2 Rates (Continued)

For Customer without billing history at Customer's premises for at least one normal Summer Season billing period, Customer's Non-Space Heat Usage for each billing period of the initial Winter Season (or partial Winter Season), shall be 45% of total kwh usage in the billing period, unless otherwise demonstrated by Customer to Utility's satisfaction, but not less than 13 kwh per day.

- (ii) Space Heat Usage during any Winter Season billing period, if any, shall be all kwh used during the billing period in excess of Non-Space Heat Usage. At Utility's option, Customer's Space Heat Usage for each Winter Season billing period shall be limited by Utility based on Utility's audit of Customer's space heating equipment.

(d) Grain Drying Option

Customer using more than 50% of electric energy for grain drying or grain handling purposes may request that Utility install a meter capable of recording kwh usage during the period May 15 through September 14 for determining Summer Season billing in lieu of the Summer Season provided in Utility's Standard Terms and Conditions. In that case, Customer shall pay an additional Facilities Charge of \$8.00 per month, and Customer's Summer Season energy charges shall be based on metered usage during the period May 15 through September 14. Customer must notify Utility on or before March 1 of the year Customer wishes to exercise this option. Customer electing this option may terminate this option after 12 months service under this option, or earlier upon payment to Utility of \$12.00 plus \$8.00 per month for each remaining month in the initial twelve-month period.

Service Classification 3 Rates

(a) Facilities Charges

\$16.00 per month for single-phase service
\$22.00 per month for three-phase service

If Customer previously served under Service Classification 2 requests that service hereunder be transferred back to Service Classification 2 during the initial twelve months of service hereunder, Customer shall pay Utility \$12.00 plus \$8.00 per month for each month remaining of the initial twelve month period.

(b) Demand Charges

The following charges shall apply to each kw of Billing Demand for bills issued during the following seasons:

	Charges	
	<u>Summer Season</u>	<u>Winter Season</u>
For each kw of Billing Demand	\$9.82 per kw	\$4.24 per kw

Billing Demand in kw is equal to the highest number of kwh used during any one hour in an On-Peak Period during the billing period.

Service Classification 3 Rates (Continued)

(c) Energy Charges

The following charges shall apply to all kwh used during the billing period:

For all kwh used during
On-Peak Periods

2.987¢ per kwh

For all kwh used during
Off-Peak Periods

2.187¢ per kwh

(d) Grain Drying Option

Customer using more than 50% of electric energy for grain drying or grain handling purposes may request that Utility program the Time-of-Use meter to record kwh usage during the period of May 15 through September 14 for determining Summer Season billing in lieu of the Summer Season defined in Utility's Standard Terms and Conditions. Under this option if the current billing period includes usage during both a Summer Season and a Winter Season, the Demand Charge shall be based on the Billing Demand established during each season multiplied by the applicable charge prorated for the number of days of each season during the billing period. Customer must notify Utility on or before March 1 of the year Customer wishes to exercise this option.

Service Classification 39 Rates

(a) Lamp Charges

If the lighting fixture can be installed on an existing distribution type wood pole and service can be supplied from an existing overhead secondary circuit on the pole, the monthly charges applicable to such installation shall be as follows:

<u>Type of Lamp</u>	<u>Lumen Rating</u>	<u>Wattage Rating</u>	<u>Charges per Month for Residential Customer</u>
<u>Area Lighting</u>			
Incandescent	2,500	189 Not available to new installations	\$ 8.06
	4,000	295 Not available to new installations	9.18
	6,000	405 Not available to new installations	10.30
	10,000	620 Not available to new installations	12.68
Mercury Vapor	6,400	175	5.42
	9,400	250	6.34
	16,000	400	9.01
	45,200	1,000 Not available to new installations	18.37

Service Classification 39 Rates (Continued)

Sodium Vapor	8,500	100	5.55
	15,000	150	6.07
	22,000	250	8.14
	45,000	400	10.05
Metal Halide	24,600	400 Available in rectangular cutoff luminaire only	14.61

Directional Lighting

Mercury Vapor	16,000	400 Not available to new installations	10.21
	45,200	1,000 Not available to new installations	17.33
Sodium Vapor	22,000	250	10.90
	45,000	400	11.65
Metal Halide	24,600	400	10.73
	83,000	1,000	20.76

The kWh consumed per lamp in each month shall be determined by multiplying the lamp wattage by one-twelfth of the annual hours of operation as estimated by Utility, divided by 1000.

(b) Additional Charges

If additional facilities or fixtures other than Utility's standard type or rearrangement of existing facilities shall be required to serve Customer, Utility shall install, operate and maintain such facilities for an additional monthly charge of 1.5% of the estimated reproduction cost new of such additional facilities at the time of rental or rearrangement is required. These charges shall be in addition to the lamp charges.
